TWO BIG BOB SLEDS WRECKED.

Going Mile a Minute on New State Road Last Night Near Ohiopyle and Two Young Men Are Injured.

Running a mile a minute on the new State road a short distance from Ohiopyle last evening two big bob-sleds were ditched and two young men were injured. Arthur Bailey had a small bone in his ankle broken and Carl Slagle had his right arm broken. Ten or twelve other young people, girls and boys, were badly bruised and shaken up.

The State road which was built last summer by Wilkey Brothers has a hill a mile long. It is not steep, but at present is about as smooth as a dancing floor with a deep tail of snow packed solid and covered with a coat of ice. Bob-sleds easily attain a speed of a mile a minute before they reach the bottom. Then there is a long stretch on which to check the speed and slow down to a stop. For several nights the young folks have been coasting on the road. Last night two big sleds, each holding from ten to twelve persons, were out. Bal-

ley, who is about 23 years old, was guiding one sled. Several lightning traps had been made. When nearing the bottom he let the steering gear slip for an instant and the big sled took the ditch. Ten young people, girls and boys, were tossed indiscriminately in all directions. That some of them were not killed is miraculous.

Ten seconds later the other sled flashed by. One hundred yards below the first wreck it skidded and then leaped into a fence. Carl Slagle, aged 16 years, was dashed against a rail and had his right arm broken. Both the young men were taken to their homes.

Several of the girls on the sleds were stunned by the force of the wreck, but they quickly walked to Ohiopyle, a distance of about a mile, after an inventory of the injured had been taken. The two injured young men were carried to Ohiopyle by their companions.

BRUTAL MURDER AT FRIENDSVILLE; WOMAN SAID TO BE THE CAUSE.

Truman Root Slashed in the Neck by John Brown, a Friend and Neighbor, and Wound Is Fatal.

STORIES OF KILLING CONFLICT.

One Report That Root Was the Aggressor and Attacked Brown, While Another Says that Brown Took His Victim Unawares.

All Friendsville is astir over a murder which was committed near there Thursday night, when Truman Root was stabbed and killed by his neighbor, John Brown, in the home of Mrs. Oscar Friend, about two miles from the Maryland town. Stories of the tragic conflict, John Brown, the alleged murderer, is under arrest and has been lodged in the Oakland jail. Brown and Root were in Friendsville together all day Thursday and seemed to be on the best of terms. They left together in the evening, neither being intoxicated, although both had, it is said, taken a few drinks. Here is where the stories differ. One report has it that the rig they were driving got out of order and Root went to Mrs. Friend's house for assistance. Brown waited until he got tired and then followed Root. What he found on the inside so enraged him that he stabbed Root in the neck. Root was on a bed at the time. His jugular vein was severed and he was unable to get out of bed. When found by Sam Friend, a neighbor, he was dead, sitting on the edge of the bed in a reclining posture, with his head and body bent over. His hand, Brown had gone. He was later arrested by Special Officer Charles Johnson, at his home nearby.

Another story is that both men entered the house at the same time. They quarreled and Root went out. When he came back he took off his coat and commenced to fight Brown, who stabbed him. The coroner's jury returned a verdict that Root came to his death as the result of a knif wound. Who did it the jury didn't say.

Jerome Willing That Harry Thaw Should Be Thus Disposed Of.

ISSUES STATEMENT TO PUBLIC

Counsel McPike Outlines Program of Defense, Which, Unless Interrupted, Would Soon End Trial, Which is Expected to Proceed on Monday.

New York, Feb 16—The following statement as to District Attorney Jerome's position with regard to the sanity or insanity of Harry K. Thaw is made:

"Mr Jerome does not know whether or not Thaw is insane. None of his assistants knows. None of the experts retained for the prosecution knows. These experts have not had an opportunity to examine Thaw either as to his physical condition or his mental calibre. They are present in court at the trial with an open mind. They would like to know."

"If any of the experts retained for the defense, some of whom have already testified, will say, authoritatively, that in their opinion Thaw is now insane, the district attorney will join with them in the request to the court for an appointment of a commission to inquire to decide on the question of the defendant's sanity."

Harry McPike of counsel for Thaw said: "When the trial is resumed next week Dr Evans will conclude his testimony. Dr Wagner will be recalled to tell of his conversations with Thaw—conversations which were ruled out last week. Then Mr Thaw's wife will finish her story, and his mother will be called as a witness for the first time. Finally, after Mr Thaw's will has been introduced as evidence, it is probable that the family physicians of the Thaw family will complete their testimony. The alienists will be asked a final question in order to round out the case and then unless something new develops, the defense probably will rest."

Think Harry Thaw is Sane. The alienists to testify for the prosecution will, it is said, insist that, in their opinion, Thaw is not only sane today, but that he was sane the day after he killed Stanford White. The experts for the prosecution are Drs Flint, MacDonald and Nixon, three of the best recognized alienists in this country. They will it is understood, testify that they have had no way of determining whether Thaw was sane when he killed Stanford White, that when they saw the prisoner on June 26th and again on June 27th, 1906, he refused to submit to an examination, and that although during the trial they have observed him in court, they have not been permitted to converse with him. They would like an opportunity to do so, it is said.

Anthony Comstock of the Society for the Suppression of Vice and E. Fellow J. Akens, superintendent and secretary of the Gerry society, have been it is reported, subpoenaed by the defense.

Mr Josiah Strong president of the American Institute for Social Service, said that Harry K. Thaw consulted him more than two years ago about breaking up a den of vice in this city which was protected by a wealthy and influential man. Thaw did not say where it was located but Dr Strong said the young man told him such a story that it made his blood boil. Dr Strong added that he referred Thaw to Anthony Comstock.

Harry Thaw's Keeper Dead. Death has again invaded Harry Thaw's environment. Close on the passing of the wife of Jurot Bolton came the death in a hospital of M. D. Downey who for months had been Thaw's night keeper on the second tier of cells in the Tombs, which is known as "murderers' row." Downey had been a keeper in the Tombs for more than 25 years. When Harry Thaw first came to the Tombs Downey did not look with favor on the new prisoner. But during the long watches of the night when Thaw paced up and down the narrow corridor of his cell a warm friendship sprang up between the keeper and the prisoner. When Downey is buried a wreath bearing Thaw's name will rest on the casket. Thaw sent the order for the flowers to Warden Flynn soon after he heard of the keeper's death.

Despite the apprehension felt over the interruption of the trial there appears no basis for a doubt that the case will be resumed as planned on Monday. Jurot Bolton has communicated to Judge Fitzgerald his expectation of being able to take his place in the jury box when the case is called.

Now who has been reported as cast down at the possibility of a mistrial declared himself to be in good health when his wife visited him at the Tombs. If his spirits were not in keeping with his physical condition he did not make the fact known. With his wife the prisoner went over the hundred or more letters and heliotypes that the mounting millions brought him. None seemed to please him more than a copy of the message from a little girl in Bellmore.

MANY VISIT SCHOOLS.

Large Attendance in Town Friday on Account of Patrons Day.

SPECIAL EXERCISES ARE HELD.

Several School Directors Turn Out and From 40 to 50 Parents Visited Many of the Rooms—Principals Think Bad Day Was Selected.

Patton's Day was generally observed in the schools throughout the county Friday and in Connellsville there were more visitors than on any previous similar occasion. In some rooms from 10 to 30 parents dropped in to look over the work being done while in other schools the number was not much below this. Several School Directors who took this opportunity to visit the rooms.

While the day was very satisfactory to the teachers there were a good many parents especially telephones young people who did not relish the event. Their parents learned a few things and found out why Tommy or John or Willie or whatever his name happens to be, doesn't get good marks in conduct or why his studies fall below the mark. There were several lectures administered in various homes last evening.

At the High School an interesting literary program was rendered in the afternoon, and special ideas were carried out in nearly all the rooms. At the South Side building Principal Geo. H. Bell permitted pupils to visit the different rooms with a call on the Squire.

Much complaint is being made that the day selected fell upon Friday. Principals are against the move because many of the teachers are in a hurry to get away while the teachers make the plea that the children are tired out after the week's work. Principal J. P. Wiley of the local schools stated this morning that he would not be able to make out a report on the number of visitors at each room until Monday. Several teachers went out of town Friday afternoon before making their report.

ROCKWOOD, Feb 16.—State Evan
gelist has Z. Jones of the W. C. T.

Rockwood borough now has a health
officer. At last session of Council
Fred Koontz was appointed to that
position at a salary of \$25 a year.
His duties are to inspect the sanitary
condition of the town and enforce
all requirements authorized by the
health ordinances. Although we have
a health officer we have no Board of
Health. Council has been striving for
the past month to get persons to let
in the place of the Board which re
cently resigned but can find no suit
able persons who will accept.

fully recovers.

Prof Charles R. B. Crainer had two
teams busy yesterday moving his
household goods to his former home
at Belmont where he will again
reside. Mr Crainer will board in town
until the end of the present school
term.

The epidemic of typhoid fever has
not been fully conquered in our town.
The latest case reported is that of
Mrs. Ballou wife of Norman B. Ballou
in the exception of Mrs. Harry
Springer. All other cases formerly
reported seem to be on the way to
recovery. At the home of E. V. Springer
the four children who were affected
are all well to day and around
although they have not as yet
turned out.

Charles Ridderour who had been off
duty for several days on account of
typhoid and cold has resumed his

CONGRESS MUST ACT.

Unless Immigration Bill Passes President Will Summon Extra Session.

SO INFORMS MAYOR SCHMITZ

With Senate Pulling One Way and Executive Another Lively Times Are in Prospect as Result of the Japanese School Question.

Washington, Feb. 16.—The San Francisco school controversy, growing out of the segregation of the Japanese school children in that city, has been settled. The basis of the agreement reached at the White House conference is that Mayor Schmitz and the members of the school board will, immediately after the passage of the immigration bill as reported by the conferees in congress, abolish the Oriental schools and again admit Japanese children into the white schools. The President and Secretary Root gave the San Franciscans assurance that if the bill is not passed at this session of congress an extra session will be called immediately after the adjournment on March 4.

MAYOR EUGENE SCHMITZ.

Mayor Schmitz received the answer of the Japanese government to his proposition for separate schools from Secretary Root and after conferring with the members of the school board he again called at the state department and informed Secretary Root that the school board had finally reached an agreement to rescind its order establishing the Oriental schools but no action will be taken in this direction until the immigration bill, including the exclusion amendment, had been passed by congress and signed by the president.

Californians Not Satisfied.
Representative Kahn said: "The people of California owe an everlasting debt of gratitude to Mayor Schmitz and his associates for what they have accomplished. The people of the coast states, however, will not consider that this is final settlement of the problem. We must have a treaty with the Japanese government supplemented by appropriate legislation that will exclude the coolie labor from the United States in the same manner that the Chinese are now kept out. California will be satisfied with nothing less. This tentative agreement will work so long as Japan desires to keep faith and no longer. If the present ministry at Tokio should be forced out of office another administration might decide to issue passports to Japanese laborers to come direct to the mainland of the United States and in that event the amendment to the immigration bill will be a dead letter."

London, Feb. 16.—In a dispatch from Tokio the correspondent of the Times says: "It is denied here upon good authority that Japan has agreed to any solution of the San Francisco problem depending upon restriction of the admission of Japanese laborers to the United States."

Action Blocked in Senate.

Washington, Feb. 16.—An agreement to vote today on the conference report of the immigration bill, which will settle the California-Japanese question, was reached in the senate as the result of an entire day of discussion. The principal speeches were delivered by Senators Bacon and Tillman in opposition to what they regarded as an effort to prevent the South from getting a desirable class of immigrants. Senator Tillman's remarks on the Japanese situation brought a warning from Senator Lodge that if continued he should move that the discussion proceed behind closed doors. International references were not made afterwards by Senator Tillman.

The senate adopted a resolution extending cordial support to the president in any steps he may deem it wise to take in relation to Chinese affairs, so long as his action is not inconsistent with treaty or other international obligations or with the traditional American policy which forbids participation of the United States in the settlement of political questions entirely.

Mail Carriers Quit Work.
Butte, Mont., Feb. 16.—The mail carriers of Butte will quit work in a body March 1, advices having been received from Washington that the increases in salaries asked for by the carriers cannot be granted. The carriers two weeks ago tendered their resignations unless the government saw fit to raise their pay. The salaries now are \$600 to \$800.

DUN'S REVIEW OF TRADE

New York, Feb. 16.—Dun's Review of Trade says today: "Despite holiday and weather interruptions the volume of business's will maintained. In most sections of the country the movement of merchandise has resumed normal proportions, snow blockades still cause much complaint, especially in regard to grain. Retail stocks of winter goods were most satisfactorily depleted during the period of low temperature and the new season will open under favorable auspices. Wholesale and jobbing houses report a liberal spring demand, particularly in dry goods."

"While at the interior there is a vigorous movement of agricultural implements and other farm supplies, a gratifying feature of many reports is the greater promptness of mercantile collections. Mills and factories have so much forward business that new contracts are not taken except at full figures, and there is dissatisfaction because shipments are not more prompt. Wages have been advanced in several important concerns and there are no serious labor controversies."

"Iron and steel producers are receiving much new business, contracts covering deliveries still further into the future, many lines being sold up to the last quarter of the year. Orders are most pressing for pipes and tubes, in which the demand is far beyond all precedent. Inquiries for sheets and plates are scarcely less urgent, and wire mills are unable to make deliveries according to specifications on old orders, while new contracts come forward constantly."

DEMAND MADDEN'S HEAD

Angry Minnesota Editors Adopt Hot Resolutions.

St. Paul, Feb. 16.—The Minnesota Editorial association has adopted a resolution pledging the association to work for the "disbarkment" of Third Assistant Postmaster General Madden, who has proved himself inefficient to hold office."

Washington, Feb. 16.—Mr. Madden was shown the above dispatch. "I suppose," said he, "that the advocates of the resolution wait by official hand just why I do not know unless it be because I have advocated the placing of all printed matter in one class and the charging of a specific rate for its transmission through the mails. It is extremely difficult to administer the law respecting such matter as it now stands and do absolute justice to the government and everybody else. I have had 10 cases passed upon by the courts and in 8 of them my decisions have been sustained. That would appear as if I was intent upon doing the right as I see it. My own belief is that it would be much better simply to classify all such matter as 'printed' and let the fact that it is 'printed' determine its classification and the rate at which it may be transmitted through the mails. What that shall be is perfectly immaterial to me. It may be four cents a pound, as I have suggested, or three cents, or any amount that congress might fix."

R. R. TAXES IN MICHIGAN

State Board of Assessors Appraise Properties at \$207,518,000.

Lansing, Mich., Feb. 16.—The state board of assessors has finally assessed railroad property in Michigan at \$207,518,000 for taxes of 1907. This is a reduction of \$2,740,000 from the valuations tentatively fixed a month ago, before the roads were given a hearing, but an increase as compared with last year when the aggregate was \$203,511,000. The taxes on these valuations will amount to \$3,417,326.90, which is \$116,095 less than the railroad taxes of a year ago. The reduction is due to lower rate of taxation on general property.

The board assessed express companies in Michigan at \$1,047,400 and car loaning companies, \$183,650. The valuations of the four largest railway systems are: Michigan Central in Michigan, \$49,460,000; Pere Marquette, \$28,000,000; Grand Trunk, \$24,600,000; Chicago & North Western, \$12,250,000. Of the Workers of Fayette County to Be Held in Casino Opera House on Sunday Evening.

A mass meeting of the workers of Fayette county, under the auspices of the Central Trades and Labor Council of Connellsville, will be held in the Casino Opera House, North Pittsburg street, at 7 o'clock, to protest against the kidnapping and subsequent incarceration in the Indian Penitentiary of W. D. Haywood, Charlie H. May, and George H. Pettibone, officials of the Western Federation of Miners. J. W. Stayton of New Castle, Pa., will be the principal speaker of the evening, assisted by James S. Greggerson of McKeesport, and probably Thomas H. Flynn, General Organizer of the Amherst Federation of Labor, who is expected to arrive here in a day or two.

While at the interior there is a vigorous movement of agricultural implements and other farm supplies, a gratifying feature of many reports is the greater promptness of mercantile collections. Mills and factories have so much forward business that new contracts are not taken except at full figures, and there is dissatisfaction because shipments are not more prompt. Wages have been advanced in several important concerns and there are no serious labor controversies.

THE THAW TRIAL.

General Opinion Now Seems to Be That the Defense Has Prosecution on the Run.

Publishers' Press Telegram
NEW YORK Feb. 10.—Pic trials of the Thaw trial being halted Monday while a fight is being made over an insanity commission looking up to that ever day. No such commission will be asked for by the defense, and any move on the part of the State will be bitterly opposed. While there are not many tangible reasons on which to base it, the general opinion is that the defense has at first things coming their way.

It developed today that a new line of evidence tending to show insanity under the unwritten law will be introduced by the defense next week when it is probable a number of men officers of the Society for the Protection of Vice and the American Institute for Social Service, as well as police officers, will testify as to the efforts made by Thaw to secure the services of Stanford White and others of the millionaires degenerates whose nests in New York's gilded Bazaar have recently come to light.

Something, an especially important move on the part of the defense is expected today, consequent upon the sudden summoning of Mrs. Thaw to Attorney Delmas' office for a conference. She had just presented her credentials at the first gate of the Tombs when a messenger from Delmas whispered something to her.

"Oh I have to see you first, then I'll come," was her reply, and she passed inside. Just as she was passing the second gate, the messenger again whispered to her. She hesitated a moment and said, "Well I will go then, and with the messenger stepped into a carriage and drove to Delmas' office, sending word to her husband that she would return shortly.

The hasty call and mandatory order which caused Evelyn Nesbit Thaw to hasten from the Tombs to the office of Attorney Delmas was the latter's desire to know just how she figured in the divorce case of George Lederer, the theatrical manager. Evelyn has always maintained that her name was dragged into the case without warrant.

It means that you are given to choose from the best products of such makers as Alfred Benjamin & Co., of New York, and Michaelis-Stern, of Rochester, N. Y., and that this little "ten-spot" entitles you to select from clothing that formerly sold at \$12, \$15, \$18, \$20 and \$22.50.

We also include in this sale every overcoat in the store at the same price, \$10.00, involving overcoats that retailed as high as \$25.00. You know why we do this. It means clean stocks next season and we gain next year the prestige of offering none but the new.

Of Importance. This sale will be a three-day sale, Friday, Saturday and Monday. You may buy any fancy suit or any overcoat in this store for \$10 during these three days. Either buy now or wait another year. We positively state that this sale represents our final clearance. Any purchase you make will involve stylish, snappy clothing, and the price is absolutely extraordinary.
